## Academic Projects

### MODERN HEALTHCARE MANAGEMENT SYSTEM

**JAN - MAY 2023**

- This system is used to reduce the manual work at health Center counters. It will help in tackling the critical situation and track all. Every sort of task is performed by the system, such as registering patient's details, hospital staff members, doctors and their specialization and their expertise which helps the patients to believe in our work and also manage the transport facility of the vehicles.
- This project is done with the help of a group.

### PRODUCT AND SERVICE MANAGEMENT SYSTEM.

**AUG - NOV 2022**

- This system is a web based Manufacturing System that enable a Web Based Company to schedule and update its Manufacturing System on the basis of sales from its dealers and update the availability of every product.
- This project is completed by the help our group of three members
